PROBLEM STATEMENT – PS-1

I am (Customer):

A student who needs help understanding educational concepts.

I'm trying to:

Learn concepts, get immediate answers, and understand topics according to my learning level.

But:

Traditional learning resources may provide explanations that are difficult to understand or may not match my learning level.

Because:

Students have different knowledge levels and learning needs.

Which makes me feel:

Confused, less confident, and dependent on others for clarification.

PROBLEM STATEMENT – PS-2

I am (Customer):

A student preparing for examinations and revision.

I'm trying to:

Practice questions and test my understanding of the topics I have learned.

But:

Creating practice quizzes manually takes time.

Because:

Learning materials may not always provide interactive practice activities.

Which makes me feel:

Less prepared and less engaged in the learning process.

PROBLEM STATEMENT – PS-3

I am (Customer):

A student studying lengthy educational content.

I'm trying to:

Understand and revise the important information quickly.

But:

Long educational content can be difficult to understand and summarize.

Because:

Important information may be distributed across large amounts of content.

Which makes me feel:

Overwhelmed and unsure about which information is most important.
