Empathy Map

PERSON

Name: Student Learner

Role / User Type: School or College Student

SAYS

- “I want simple explanations for difficult topics.”
- “I need quick answers to my questions.”
- “I want to practice what I have learned.”

THINKS

- “The explanation should match my learning level.”
- “I need an easier way to understand lengthy content.”
- “I want to improve my knowledge through practice and revision.”

DOES

- Enters questions or topics into the learning application.
- Selects a learning activity and learning level.
- Uses AI-generated explanations, quizzes, summaries, and learning recommendations.

FEELS

- Confused when concepts are difficult to understand.
- Frustrated when learning materials are too complex or lengthy.
- More confident and engaged when learning content is simple and personalized.
